

Malott Homework Set 3 Chapter 12 Homework

1-51 to 4-54. Fill in the correct letter in the correct place in the diagram. You can only use the letters once. Pg. 214

The Differential-reinforcement procedure vs. The stimulus-discrimination procedure		
	One Stimulus	Two Stimuli
One response class	1-51	2-52
Two response class	3-53	4-54

- A. Response differentiation
- B. No differentiation or discrimination
- C. Stimulus discrimination
- D. Combined differentiation and discrimination

5-55. T/F Mallot says that if you can't find the Discriminative stimulus then there is no S-delta? Pg. 224

6-56 to 10-60 Match the correct terms with the correct definitions.

- A. Reinforcing or punishing a response in the presence of one stimulus and extinguishing it or allowing it to recover in the presence of another stimulus.
- B. The occurrence of a response more frequently in the presence of one stimulus than in the presence of another, usually as a result of a discrimination training procedure.
- C. A stimulus in the presence of which a particular response will be reinforced or punished.
- D. A stimulus in the presence of which a particular response will not be reinforced or punished.
- E. The planned use of behavioral contingencies, differential reinforcement, and discrimination training, in the student's everyday environment.

6-56. \_\_\_\_ Incidental teaching Pg. 216

- 7-57. \_\_\_\_ Stimulus discrimination (stimulus control) Pg. 207
- 8-58. \_\_\_\_ Discrimination training procedure Pg. 207
- 9-59. \_\_\_\_ S-Delta Pg. 207
- 10-60. \_\_\_\_ Discriminative stimulus Pg. 207
