

Malott Homework Set 3 Chapter 23 Homework

1-51 to 5-55 Match the correct term to the correct definition.

A. Give feedback and reinforcers for the details of the process, not just the outcome.

B. Nonverbal stimuli or verbal statement contingent on past behavior that can guide future behaviors.

C. An analysis of complex behavior and sequences of behavior into component responses.

D. An experimental design in which the replication involve baselines of differing durations and interventions of differing starting times.

E. Private behavior (not visible to the outside observer)

1-51. ____ Task analysis p.396

2-52. ____ Multiple-baseline p.405

3-53. ____ Feedback p.396

4-54. ____ Process vs. product p.396

5-55. ____ Covert behavior p. 406

6-56. With repetition of the response, control often shifts from control by the rule describing a direct-acting contingency to control by the direct-acting contingency itself. This is a definition of? P. 407

A. Task analysis

B. Multiple-baseline

C. Shifting from rule control to contingency control

D. Feedback

E. Covert behavior

7-57. A rule-governed analog to a reinforcable response unit is a response unit with ____ gaps? P. 408

A. 120 second

B. 60 second

C. 30 second

D. None of the above

E. All of the above

8-58. A response or a sequence of responses with no disruptions greater than 60 seconds within that response or sequence of responses. Is a definition of? P. 408

- A. Rule-governed analog to a reinforcing response
- B. Shifting from rule control to contingency control
- C. A reinforcing response unit
- D. Task analysis
- E. Conditional stimulus

9-59. Elements of a stimulus have their value or function only when they are combined: otherwise, the individual elements are relatively neutral. This is a definition of? (P. 409)

- A. Task analysis
- B. Rule governed behavior
- C. A reinforcing response unit
- D. Conditional stimulus
- E. None of the above

10-60. Use the example of public posting of grades to reinforce studying what kind of contingency is involved in this example? P. 398

- A. Rule-governed analog to reinforcement
- B. Analog to reinforcement
- C. Direct-acting contingency
- D. Indirect-acting contingency
- E. None of the above
