

Malott Homework Set 3 Chapter 24 Homework

1-51 to 5-55 Match the correct term to the correct definition

- A. A written rule statement describing the desired or undesired behavior, the occasion when the behavior should or should not occur, and the added outcome for that behavior.
- B. Poor self-management occurs because immediate outcomes control our behavior better than delayed outcomes do.
- C. Describe outcomes that are both sizable and probable, the delay isn't crucial.
- D. Describe outcomes that are either too small (though often of cumulative significance) or too improbable, the delay isn't crucial
- E. Poor control by rules describing outcomes that are either too small (though often of cumulative significance) or too improbable, the delay isn't crucial.

1-51. ____ Rules that are hard to follow p. 417

2-52. ____ Real causes of poor self-management p. 418

3-53. ____ Performance contract p. 412

4-54. ____ Rules that are easy to follow p. 417

5-55. ____ Mythical causes of poor self-management p. 415

6-56. The ineffective natural contingency, the effective, indirect-acting performance-management contingency, and the effective, direct-acting theoretical contingency. These are all examples of? P. 423

- A. Performance contract
- B. The three-contingency model of performance management
- C. Rules that are hard to follow
- D. Rules that are easy to follow
- E. None of the above

7-57. _____ Contracts designed to increase or maintain behavior should specify outcomes that are sizable, probable, and though possibly delayed? P. 425

- A. Performance management contract
- B. Rule contracts
- C. The three-contingency model of performance management
- D. None of the above
- E. All of the above

8-58. _____ Involves the definite, sizable, and immediate reduction in the aversiveness established by the statement of rules of the behavioral research supervisory system. P. 425

- A. Ineffective natural contingency
- B. Effective performance management contingency
- C. Theoretical, effective direct-acting contingency
- D. All of the above
- E. None of the above

9-59. Failure to wear a seat belt is a result of _____ outcomes? P.417

- A. Probable
- B. Improbable
- C. Small, but cumulative
- D. Delayed
- E. None of the above

10-60. Failure to stick to a diet and eating a spoonful of ice cream is a result of _____ outcomes. P. 416

- A. Probable
- B. Improbable
- C. Small, but cumulative
- D. Delayed
- E. None of the above
