

Malott Homework Set #3 Chapter 28

1-51. Performance established at one time in one place now occurs in a different time and place. Is a definition of? P. 449

- A. Transfer of training
- B. Task analysis
- C. Training setting
- D. Training response
- E. None of the above

2-52 to 6-56. Put the proper letter in each blank. There may be letters that are not used and there may be letters used more than once and some blanks will require more than one letter. P.460

Compare and Contrast Transfer and Maintenance with Verbal and Nonverbal Clients		
	Nonverbal	Verbal
Transfer	2-52	3-53
Maintenance	Behavior trap and 4-54	5-55

- A. Rules
- B. Behavior trap
- C. Stimulus and response similarity
- D. Added contingencies
- E. The law of effect

6-56. The addition or change of several independent variables at the same time to achieve a desired result, without testing the effect of each variable individually. This is a definition of? P. 461

- A. Transfer of training
- B. Task analysis
- C. Training setting
- D. Intervention package
- E. None of the above

7-57. T/F Transfer takes place when performance in a test setting shows the effects of a behavioral intervention in a training setting? P.459

8-58 to 11-61 use the example of training Jimmy to self-instruct and use the self-instructions Jimmy used to figure out the problem orientation. P. 457

Problem-Oriented Instructions	
Type	Self-instructions
8-58	“what do I have to do first”
9-59	“I have to circle the words that have the same letters”
10-60	“Not this one, so I won’t circle it.” Or “This one, so I will circle it.”
11-61	“Good Job”

- A. Self-acknowledgement
- B. Task statement
- C. Problem orientation
- D. Guiding self-statement
- E. None of the above
